AGRIBANK 2019 QUARTERLY REPORT

MARCH 31, 2019

ADVANCING TOGETHER

FUNDING AND FINANCIAL SOLUTIONS, TODAY AND TOMORROW

AgriBank

FARM CREDIT BANK

Copies of Quarterly and Annual Reports are available upon request by contacting AgriBank, FCB, 30 E. 7th Street, Suite 1600, St. Paul, MN 55101 or by calling (651) 282-8800. Reports are also available at www.AgriBank.com.

Management's Discussion and Analysis

AgriBank, FCB

(Unaudited)

The following commentary is a review of the financial condition and results of operations of AgriBank, FCB (AgriBank or the Bank). This information should be read in conjunction with the accompanying Financial Statements, the Notes to the Financial Statements and the 2018 Annual Report.

AgriBank is part of the customer-owned, nationwide Farm Credit System. Under Farm Credit's cooperative structure, AgriBank is primarily owned by 14 local Farm Credit Associations, which provide financial products and services to rural communities and agriculture. AgriBank obtains funds and provides funding and financial solutions to those Associations. The AgriBank District covers a 15-state area stretching from Wyoming to Ohio and Minnesota to Arkansas.

Forward-Looking Information

Any forward-looking statements in this Quarterly Report are based on current expectations and are subject to uncertainty and changes in circumstances. Actual results may differ materially from expectations due to a number of risks and uncertainties. More information about these risks and uncertainties is contained in our 2018 Annual Report. AgriBank undertakes no duty to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Financial Overview

Net income decreased $8.7 million, or 6.0 percent, to $137.3 million for the three months ended March 31, 2019, compared to the same period of the prior year. The decrease in net income was primarily due to a decrease in non-interest income. The decrease in non-interest income was mainly attributable to decreased mineral income, losses from economic hedges and a decrease in distribution from the Farm Credit System Insurance Corporation (FCSIC). This decrease was partially offset by increased net interest income, primarily resulting from increased interest income on loans and investment securities.

Return on assets ratio (ROA) of 51 basis points in the first quarter of 2019 is above our 50 basis point target.

Loan portfolio credit quality remained strong with 98.0 percent of our total loan portfolio in the acceptable category. As of March 31, 2019, two of AgriBank's wholesale loans were classified as other assets especially mentioned (special mention), and the remaining wholesale portfolio was classified as acceptable. Credit quality of our retail loan portfolio (accounting for approximately 9 percent of our total loan portfolio) increased slightly to 91.7 percent acceptable as of March 31, 2019, compared to 90.7 percent acceptable at

Back cover photo: Dave Berdahl, Manager Balance Sheet Management

December 31, 2018. Robust capital levels ensure we are well-positioned to manage the cyclicality that is characteristic of the agricultural market. Refer to the Loan Portfolio and Funding, Liquidity and Shareholders' Equity sections for further discussion.

Economic Conditions

Interest Rate Environment

U.S. economic activity is expected to continue advancing at a moderate pace and the U.S. economy is forecasted to grow 2.4 percent in 2019 and 1.9 percent in 2020. U.S. economic growth should continue to be driven by consumer and investment spending. Consumer spending has remained strong due to consumer confidence, which despite declining recently, remains at elevated levels. Investment spending is expected to grow in 2019, but at a somewhat slower pace than 2018. In addition, slower export growth due to the effects of the ongoing trade disputes with China, is expected to moderate economic growth in 2019.

The Federal Open Market Committee (FOMC) of the Federal Reserve has lowered its forecast for the federal funds rate and expects no further interest rate hikes in 2019. The Federal Reserve announced that it will end the process of winding down its balance sheet in September 2019. After the 25 basis point (bp) rate increase in December 2018, the target range for the federal funds rate stands at 2.25 to 2.50 percent. The path for the federal funds rate is expected to remain data-dependent and, according to Federal Reserve communications, the Federal Reserve believes that it can be patient with future changes to the federal funds rate. The consensus forecast of economists also suggests that the FOMC is unlikely to increase the federal funds rate in 2019. The U.S. Treasury yield curve has flattened due to the Federal Reserve's increases to short-term rates and due to a decline in inflation expectations, which has pushed long-term rates lower. Economists expect U.S. Treasury rates to move only slightly higher by the end of 2019 with the 2-year and 10-year rates approaching 2.53 and 2.75 percent, respectively.

We manage interest rate risk consistent with policies established by the AgriBank Board of Directors and limits established by AgriBank's Asset/Liability Committee (ALCO) (refer to Interest Rate Risk Management section of the 2018 Annual Report).

Agricultural Conditions

The U.S. Department of Agriculture's Economic Research Service has initially forecasted 2019 net farm income to increase $6.3 billion, or 10.0 percent, to $69.4 billion from the latest 2018 estimate of $63.1 billion. This increase is primarily driven by cash receipts, which more than offset decreased direct government payments and increased expenses. Although a notable improvement, this forecasted 2019 net farm income level measures $23.7 billion or 25.5 percent below the 10-year average when adjusting the value of the U.S. dollar for inflation over this time period.

Net cash farm income is projected to increase by $4.3 billion in 2019 compared to 2018. This increase is based on projected higher cash crop, animal and animal products cash receipts, partially offset with only modestly higher projected cash expenses. Negatively impacting the net cash farm income projection is the expected decline in direct government payments. Despite projected net cash farm income, U.S. farm sector working capital has declined in recent years, and further declines are projected in 2019, perpetuated by diminished levels of cash and other short-term assets, sustained low commodity prices and growing short-term debt.

While the farm sector's declining working capital remains a cause for concern in 2019, the solid U.S. economy does provide demand support for agricultural commodities. The primary area of risk will remain the export component of the demand for U.S. agricultural commodities, with a strong dollar and ongoing uncertainty surrounding the future of U.S. trade policy. The revised Dairy Margin Protection Program in the Farm Bill and the new Dairy Revenue Protection Program may provide limited support for dairy farmers; however, the dairy market remains very challenged.

Producers who are able to realize cost of production efficiencies and market their farm products effectively are most likely to adapt to the current price environment. Optimal input usage, adoption of cost-saving technologies, negotiating adjustments to various business arrangements such as rental cost of agricultural real estate, and effective utilization of hedging and other price risk management strategies are all critical in yielding positive net income for producers.

Updated Industry Conditions
The following are industry conditions for which we have updated our outlook since December 31, 2018. For further analysis of industry conditions that have not experienced a change in outlook since December 31, 2018, refer to the Agricultural Conditions section of Management's Discussion and Analysis of the 2018 Annual Report.

Timber
Early 2019 data indicate lower housing starts, which may result in decreased demand for forest products. As a result, we have changed our outlook for the timber industry to Neutral from Positive-to-neutral.

Even though we have not changed our outlook for the pork and soybean industries, the continual proliferation of African Swine Fever (AFS) in Europe and East Asia, particularly in China, has potential consequences for these markets. Generally, the AFS situation may result in support to U.S. animal protein producers and decrease Chinese demand for U.S soybeans.

Land Values
Land values in the District are expected to remain stable or soften over the next year, primarily due to anticipated continued low levels of net farm income in 2019 and beyond. We will update the annual AgriBank District Benchmark Survey in June 2019.

The Federal Reserve Banks of Minneapolis, Chicago, Kansas City and St. Louis reported on the change in farmland values from the end of the fourth quarter 2017 to the end of the fourth quarter 2018 in their respective districts. These Federal Reserve district reports indicated overall farmland values ranging from a decrease of 1.8 percent to an increase of 3.4 percent.

The USDA 2018 land value survey, based primarily on agricultural producer opinions, indicated farmland values and cropland values in the AgriBank District increased 1.4 percent and 0.2 percent, respectively, compared to 2017 survey results.

AgriBank District credit risk policies focus on loan repayment capacity in addition to conservative loan-to-value levels on the collateral that secures loans. Although Farm Credit Administration (FCA) regulations allow real estate mortgage loans of up to 85 percent of appraised value, AgriBank's underwriting guidance generally limit lending to no more than 65 percent at origination. Many District Associations have implemented risk management practices that incorporate loan-to-appraised value thresholds below the 65 percent level. In addition, many District lenders impose lending caps per acre based on the land's sustainable income-producing capacity. While underwriting exceptions on loan-to-appraised-value are sometimes granted, in such cases loans are typically structured with shorter amortization schedules and/or additional principal payments in the early years to reduce risk.

Loan Portfolio

Components of Loans

(in thousands)	**March 31, 2019**	December 31, 2018
Accrual loans:		
Wholesale loans	**$84,342,505**	$83,806,569
Retail loans:		
Real estate mortgage	**$3,217,096**	$3,491,298
Production and intermediate-term	**4,374,997**	4,676,849
Loans to other financial institutions (OFIs)	**508,262**	549,113
Other	**206,162**	138,725
Total retail loans	**8,306,517**	8,855,985
Nonaccrual loans	**58,881**	54,147
Total loans	**$92,707,903**	$92,716,701

The Other category is composed of agribusiness and rural residential real estate loans.

Loans totaled $92.7 billion at March 31, 2019, remaining stable compared to December 31, 2018. Within total loans, increased wholesale loans were driven by increased draws by District Associations, primarily to fund agribusiness volume and partially offset by paydowns on wholesale loans reflecting seasonal repayments on operating lines in the production and intermediate-term sector at District Associations. Similar seasonal activity was reflected in our retail portfolio within the production and intermediate term sector.

The credit quality of our total loan portfolio remained strong at 98.0 percent in the acceptable category at March 31, 2019, unchanged from December 31, 2018. Adversely classified loans were 0.4 percent at March 31, 2019 compared to 0.5 percent at December 31, 2018. As a majority of our loans are wholesale loans, we expect our credit quality will remain strong even as some District Associations experience further gradual declines in their retail credit quality. Each District Association has allowances for loan losses, earnings and capital that absorb their credit losses before their losses would impact our wholesale loans. Credit quality of our retail loan portfolio increased to 91.7 percent acceptable as of March 31, 2019, compared to 90.7 percent acceptable at December 31, 2018.

Components of Risk Assets

(in thousands)	**March 31, 2019**	December 31, 2018
Nonaccrual loans	**$58,881**	$54,147
Accruing restructured loans	**3,816**	3,819
Accruing loans 90 days or more past due	**8,807**	863
Total risk loans	**71,504**	58,829
Other property owned	**503**	566
Total risk assets	**$72,007**	$59,395
Risk loans as a % of total retail loans	**0.84%**	0.65%
Nonaccrual loans as a % of total retail loans	**0.69%**	0.60%
Delinquencies as a % of total retail loans	**1.91%**	0.82%
Risk loans as a % of total loans	**0.08%**	0.06%
Nonaccrual loans as a % of total loans	**0.06%**	0.06%
Delinquencies as a % of total loans	**0.17%**	0.08%

Note: Accruing loans include accrued interest receivable.

Risk assets remain at acceptable levels, and total risk loans as a percentage of total loans remains within our established risk management guidelines. Risk loans are primarily concentrated in the real estate mortgage and production and intermediate-term sectors, including certain loans in our ProPartners portfolio. However, the risk in the ProPartners portfolio is mitigated by significant credit enhancements, including guarantees with third parties that are in a strong financial position. At March 31, 2019, 47.2 percent of nonaccrual loans were current as to principal and interest, compared to 51.8 percent at December 31, 2018.

Our accounting policy requires loans past due 90 days to be transferred into nonaccrual status unless adequately secured and in the process of collection. Based on our analysis, all accruing loans 90 days or more past due were eligible to remain in accruing status.

Allowance Coverage Ratios

	March 31, 2019	December 31, 2018
Allowance as a percentage of:		
Loans	**0.03%**	0.03%
Retail loans	**0.32%**	0.28%
Nonaccrual loans	**45.70%**	47.23%
Total risk loans	**37.63%**	43.47%
Adverse assets to capital and allowance for loan losses	**6.26%**	7.90%

The allowance for loan losses is an estimate of losses on loans in our portfolio as of the financial statement date. We determine the appropriate level of allowance for loan losses based on the periodic evaluation of factors such as loan loss history, estimated probability of default, estimated loss severity, portfolio quality, and current economic and environmental conditions. As of March 31, 2019, the allowance increased $1.3 million, compared to December 31, 2018. This reflects $2.5 million of provision for loan losses during the three months ended March 31, 2019, partially offset by $1.2 million in net charge-offs.

Funding, Liquidity and Shareholders' Equity

We are responsible for meeting the District's funding, liquidity and asset/liability management needs. Access to the unsecured debt capital markets remains our primary source of liquidity. The System continues to have reliable access to the debt capital markets to support its mission of providing credit to farmers, ranchers and other eligible borrowers. During the three months ended March 31, 2019, investor demand for Systemwide Debt Securities remained favorable.

We also maintain a secondary source of liquidity through a high-quality investment portfolio and other short-term liquid assets.

Our liquidity policy and FCA regulations require maintaining minimum liquidity on a continuous basis of 120 days and 90 days, respectively. The days of liquidity measurement refers to the number of days that maturing debt is covered by liquid investments. As of March 31, 2019, we had sufficient liquidity to fund all debt maturing within 149 days. At March 31, 2019, we held qualifying assets in excess of each incremental level to meet the liquidity coverage intervals.

Total shareholders' equity at March 31, 2019 was $5.9 billion, a $37.0 million increase from December 31, 2018. The increase was primarily driven by comprehensive income and stock purchased, which were substantially offset by patronage distributions declared, consistent with our capital plan.

At March 31, 2019, we exceeded the regulatory minimum capital ratios. Refer to the Additional Regulatory Information section as well as Note 4 in the accompanying Financial Statements for further discussion of capital ratios.

Results of Operations

Net income for the three months ended March 31, 2019 was $137.3 million, a 6.0 percent decrease, compared to $146.0 million for the same period in 2018. Return on assets ratio of 51 basis points in 2019 remained above AgriBank's 50 basis point target.

Changes in Significant Components of Net Income

(in thousands) **For the three months ended March 31,**	**2019**	2018	Increase in Net Income
Net interest income	**$158,988**	$144,748	$14,240
Provision for loan losses	**2,500**	--	(2,500)
Non-interest income	**14,135**	32,634	(18,499)
Non-interest expense	**33,369**	31,385	(1,984)
Net income	**$137,254**	$145,997	$(8,743)

The decrease in non-interest income was primarily due to decreased mineral income and changes in the fair value of our commodity options related to mineral income. The options related to the mineral income increased in value during the fourth quarter of 2018, when oil prices decreased; however, as oil prices rebounded in the first quarter of 2019, the value of the options decreased. Refer to Note 8 for additional information about derivatives and hedging. Additionally, although we received an Allocated Insurance Reserve Accounts (AIRAs) distribution from the FCSIC during the first quarter of 2019, it was significantly less than the distribution received in 2018. The AIRAs were established by the FCSIC when premiums collected increased the level of the insurance fund beyond the required secured base amount of 2 percent of insured debt. Refer to the AgriBank 2018 Annual Report for additional information about the FCSIC.

Changes in Net Interest Income

(in thousands)

For the three months ended March 31,		**2019 vs 2018**	
Increase (decrease) due to:	**Volume**	**Rate**	**Total**
Interest income:			
Loans	**$30,824**	**$121,091**	**$151,915**
Investments	**639**	**33,846**	**34,485**
Total interest income	**31,463**	**154,937**	**186,400**
Interest expense:			
Systemwide debt securities and other	**(23,603)**	**(148,557)**	**(172,160)**
Net change in net interest income	**$7,860**	**$6,380**	**$14,240**

The increase in net interest income was attributable to comparable contributions from increased loan volume and increased interest rates earned on loans and investments. This increase was substantially offset by increased interest expense due to increased volume of Systemwide debt and higher interest expense paid on Systemwide debt.

Information regarding the year-to-date average daily balances (ADBs) and annualized average rates earned and paid on our portfolio follows:

(in thousands)

For the three months ended March 31,		**2019**			2018	
	ADB	**Rate**	**NII**	ADB	Rate	NII
Interest earning assets:						
Wholesale loans	**$83,306,171**	**2.83%**	**$581,051**	$78,794,548	2.27%	$447,162
Retail accrual loans	**8,490,323**	**4.64%**	**97,093**	8,133,277	3.99%	81,067
Retail nonaccrual loans	**54,969**	**22.38%**	**3,033**	54,873	7.53%	1,032
Investment securities and federal funds	**15,918,800**	**2.55%**	**100,251**	15,767,142	1.67%	65,766
Total earning assets	**107,770,263**	**2.94%**	**781,428**	102,749,840	2.32%	595,027
Interest bearing liabilities	**102,301,457**	**2.47%**	**622,440**	97,391,584	1.88%	450,279
Interest rate spread	**$5,468,806**	**0.47%**		$5,358,256	0.44%	
Impact of equity financing		**0.13%**			0.13%	
Net interest margin		**0.60%**			0.57%	
Net interest income			**$158,988**			$144,748

Net interest margin for the three months ended March 31, 2019, increased 3 basis points compared to the same period of the prior year. This increase was primarily driven by the increased interest rate spread on retail loans and investment securities. Equity financing represents the benefit of non-interest bearing funding. As anticipated, the positive contribution from funding actions has declined due to the current interest rate environment.

Investment Securities Eligibility

The new FCA regulation governing the eligibility of investment securities for System Banks and Associations went into effect January 1, 2019. We have updated our policies, procedures and other documentation to ensure compliance with this new regulation. See our 2018 Annual Report for additional information about this new regulation.

Certification

The undersigned have reviewed the March 31, 2019 Quarterly Report of AgriBank, FCB, which has been prepared under the oversight of the Audit Committee and in accordance with all applicable statutory or regulatory requirements. The information contained herein is true, accurate and complete to the best of our knowledge and belief.

Notes to Financial Statements

AgriBank, FCB

(Unaudited)

NOTE 1

Organization and Significant Accounting Policies

AgriBank, FCB (AgriBank) is one of the Banks of the Farm Credit System (the System), a nationwide system of cooperatively owned Banks and Associations, established by Congress and subject to the provisions of the Farm Credit Act of 1971, as amended. The System specializes in providing financing and related services to qualified borrowers for agricultural and rural purposes. AgriBank and its District Associations are collectively referred to as the District. At March 31, 2019, the District had 14 Agricultural Credit Associations (ACA). Each parent ACA has wholly owned Federal Land Credit Association and Production Credit Association subsidiaries. AgriBank serves as the intermediary between the financial markets and the retail lending activities of the District Associations.

A description of our organization and operation, significant accounting policies followed, financial condition and results of operations as of and for the year ended December 31, 2018 are contained in the 2018 Annual Report. There have been no significant changes in our accounting policies since December 31, 2018, except as described in the Recently Issued Accounting Pronouncements. These unaudited first quarter 2019 Financial Statements should be read in conjunction with the Annual Report. The results for the three months ended March 31, 2019 do not necessarily indicate the results to be expected for the year ended December 31, 2019.

The accompanying Financial Statements contain all adjustments necessary for a fair presentation of the interim financial condition and results of operations and conform to generally accepted accounting principles in the United States of America (GAAP) and prevailing practices within the financial services industry. The preparation of Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Certain amounts in prior year’s Financial Statements have been reclassified to conform to current year presentation.

The Financial Statements include the accounts of AgriBank. The Financial Statements do not include the assets, obligations, or results of operations of District Associations. AgriBank operates as a single segment for reporting purposes.

Recently Issued or Adopted Accounting Pronouncements

We have assessed the potential impact of accounting standards that have been issued by the Financial Accounting Standards Board (FASB) and have determined the following standards to be applicable to our business:

Standard and effective date	Description	Adoption status and financial statement impact
In February 2016, the FASB issued ASU 2016-02 "Leases." In July 2018, the FASB issued ASU 2018-11 "Leases (Topic 842): Targeted Improvements." The guidance was effective for our first quarter of 2019.	The guidance modifies the recognition and accounting for lessees and lessors and requires expanded disclosures regarding assumptions used to recognize revenue and expenses related to leases. Upon adoption, a liability for lease obligations and a corresponding right-of-use asset is recognized on the Statements of Condition for all lease arrangements spanning more than 12 months. The guidance includes an optional transition method where an entity is permitted to apply the guidance as of the adoption date and recognize a cumulative-effect adjustment to the opening balance of retained earnings.	We adopted this guidance on January 1, 2019. The adoption of this guidance did not have a material impact on our financial condition, results of operations, and financial statement disclosures, and had no impact on our cash flows.
In August 2017, the FASB issued ASU 2017-12 "Targeted Improvements to Accounting for Hedging Activities." This guidance was effective for our first quarter of 2019.	The guidance better aligns an entity's risk management activities and financial reporting for hedging relationships through changes to both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results. The amendments in this guidance require an entity to present the earnings effect of the hedging instrument in the same income statement line item in which the earnings effect of the hedged item is reported. This guidance also addresses the timing of effectiveness testing, qualitative and quantitative effectiveness testing and components that can be excluded from effectiveness testing.	We adopted this guidance on January 1, 2019. The adoption of this guidance did not have a material impact to our results of operations as all derivative gains and losses, for which hedge accounting is applied, are now recognized in interest expense on the Statements of Comprehensive Income. We modified certain derivative-related financial statement disclosures. The adoption of this guidance did not impact our Statements of Financial Condition or Statements of Cash Flows.
In October 2018, the FASB issued ASU 2018-16 "Derivatives and Hedging (Topic 815)." This guidance was effective for our first quarter of 2019.	The amendments in this update permit the Overnight Index Swap (OIS) rate based on Secured Overnight Financing Rate (SOFR) as a U.S. benchmark interest rate. Including the OIS rate based on SOFR as an eligible benchmark interest rate during the early stages of the marketplace transition will facilitate the London Inter-bank Offered Rate (LIBOR) to SOFR transition and provide sufficient lead time for entities to prepare for changes to interest rate risk hedging strategies for both risk management and hedge accounting purposes.	Based on our review and analysis, this updated guidance is likely to impact our interest rate derivative contracts as future contracts will likely utilize the OIS rate based on SOFR. Further, existing contracts with expiration dates after the LIBOR phase-out date may be impacted by this updated guidance. We are currently unable to estimate the impact on our financial statements.

Standard and effective date	Description	Adoption status and financial statement impact
In August 2018, the FASB issued ASU 2018-13 “Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement." This guidance is effective for public business entities for our first quarter of 2020 and early adoption is permitted.	The guidance removes, adds and modifies certain disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement.	Based on our review and analysis, we have, and expect to, modify certain fair value related disclosures. We adopted a portion of this guidance and removed certain fair value disclosures as permitted by the guidance. We have no plans to early adopt the remaining guidance.
In August 2018, the FASB issued ASU 2018-15 “Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement that is a Service Contract.” This guidance is effective for public business entities for our first quarter of 2020 and early adoption is permitted.	The guidance clarifies that implementation costs incurred in a hosting arrangement that is a service contract should be accounted for in the same manner as implementation costs incurred to develop or obtain internal-use software.	We are in the process of reviewing the accounting standard. Based on our preliminary review and analysis, this new guidance will not have a material impact on our financial condition, results of operations, cash flows and financial statement disclosures.
In August 2018, the FASB issued ASU 2018-14 “Disclosure Framework—Changes to the Disclosure Requirements for Defined Benefit Plans. This guidance is effective for public business entities for our first quarter of 2021 and early adoption is permitted.	The guidance removes and adds certain disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans.	We are in the process of reviewing the accounting standard. Based on our preliminary review and analysis, we expect to modify certain employee benefit plan related disclosures. Prior to the effective date, we may early adopt this disclosure guidance.
In June 2016, the FASB issued ASU 2016-13 “Financial Instruments - Credit Losses." The guidance is effective for non-U.S. Securities Exchange Commission filers for our first quarter of 2021 and early adoption is permitted.	The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. Credit losses relating to available-for-sale securities would also be recorded through an allowance for credit losses.	We have no plans to early adopt this guidance. We have reviewed the accounting standard, selected our system, and are in the process of drafting disclosures. Significant implementation matters yet to be addressed include system development and testing, drafting of accounting policies and designing processes and controls. We are currently unable to estimate the impact on our financial statements.

NOTE 2

Loans and Allowance for Loan Losses

Loans by Type

(in thousands)	March 31, 2019 Amount	%	December 31, 2018 Amount	%
Wholesale loans	**$84,342,505**	**91.0%**	$83,806,569	90.4%
Retail loans:

Other	**206,196**	138,760
Total loans	**$7,857,038**	$8,360,902

Portfolio Performance

The primary credit quality indicator we use is the Farm Credit Administration (FCA) Uniform Loan Classification System, which categorizes loans into five categories. The categories are defined as follows:

- Acceptable – assets are non-criticized assets representing the highest quality. They are expected to be fully collectible. This category is further differentiated into various probability of default ratings.
- Other Assets Especially Mentioned (Special mention) – are currently collectible, but exhibit some potential weakness. These assets involve increased credit risk, but not to the point of justifying a substandard classification.
- Substandard – assets exhibit some serious weakness in repayment capacity, equity and/or collateral pledged on the loan

- Doubtful – assets exhibit similar weaknesses as substandard assets. However, doubtful assets have additional weaknesses in existing factors, conditions and values that make collection in full highly questionable.
- Loss – assets are considered uncollectible

Total	$58,829	$90,321	$6,911	$60,448	$1,106

(1) The recorded investment in the receivable is the face amount increased or decreased by applicable accrued interest and unamortized premium, discount, finance charges and acquisition costs and may also reflect a previous direct write-down of the investment. The recorded investment may be less than the unpaid principal balance as payments on non-cash basis nonaccrual loans reduce the recorded investment.
(2) Unpaid principal balance represents the contractual principal balance of the loan.

We did not have any material commitments to lend additional money to borrowers whose loans were classified as risk loans as of March 31, 2019.

Troubled Debt Restructurings

Included within our loans are troubled debt restructurings (TDRs). These loans have been modified by granting a concession in order to maximize the collection of amounts due when a borrower is experiencing financial difficulties. All risk loans, including TDRs, are analyzed within our allowance for loan losses. The primary type of modification is interest rate reduction below market or extension of maturity. Our loans classified as TDRs and activity on these loans were not material during the three months ended March 31, 2019 or 2018. We did not have any material commitments to lend to borrowers whose loans have been modified as TDRs as of March 31, 2019.

There were no AFS investment securities sold during the three months ended March 31, 2019 or 2018.

We evaluate our investment securities for other-than-temporary impairment (OTTI) on a quarterly basis. We have determined no securities were in an OTTI loss position at March 31, 2019 or at December 31, 2018.

There was no OTTI activity during the three months ended March 31, 2019 or 2018.

NOTE 4

Shareholders' Equity

Regulatory Capital Requirements and Ratios

	March 31, 2019	December 31, 2018	**Regulatory Minimums**	**Capital Conservation Buffer (1)**	**Total**
Risk-adjusted:					
Common equity tier 1 capital ratio	**17.2%**	17.7%	4.5%	2.5%	7.0%
Tier 1 capital ratio	**18.0%**	18.5%	6.0%	2.5%	8.5%
Total capital ratio	**18.1%**	18.6%	8.0%	2.5%	10.5%
Permanent capital ratio	**18.0%**	18.5%	7.0%	0.0%	7.0%
Non-risk-adjusted:					
Tier 1 leverage ratio	**5.5%**	5.5%	4.0%	1.0%	5.0%
UREE(2) leverage ratio	**2.9%**	3.0%	1.5%	0.0%	1.5%

(1) The 2.5% capital conservation buffer over risk-adjusted ratio minimums is being phased in over three years under the FCA capital requirements. The phase in period ends on December 31, 2019.

(2) Unallocated retained earnings and equivalents

If the capital ratios fall below the total requirements, including the buffer amounts, capital distributions (equity redemptions, dividends and patronage) and discretionary senior executive bonuses are restricted or prohibited without prior FCA approval.

Protected participation certificates of $181 thousand are included in Capital Stock and Participation Certificates on the Statements of Changes in Shareholders' Equity as of March 31, 2019 and December 31, 2018.

NOTE 5

Employee Benefit Plans

We participate in District wide employee benefit plans. The funded status of the post-employment benefit plans is recorded at the District level. The components of net periodic benefit cost other than the service cost component, are included in the line item "Other operating expenses" on the Statements of Comprehensive Income. Service costs are included in the line item "Salaries and employee benefits" on the Statements of Comprehensive Income.

District Components of Net Periodic Benefit Cost

(in thousands)	**Pension Benefits**		**Other Benefits**	
For the three months ended March 31,	**2019**	2018	**2019**	2018
Net periodic benefit cost:

Interest cost	**12,931**	11,607	**196**	168
Expected return on plan assets	**(17,168)**	(16,415)	**--**	--
Amortization of prior service credit	**(724)**	(904)	**--**	--
Amortization of net loss (gain)	**9,164**	12,342	**(380)**	(428)
Net periodic benefit cost	**$10,495**	$14,200	**$(130)**	($194)

Certain employees in the AgriBank District participate in the AgriBank District Retirement Plan, a governmental defined benefit retirement plan covering most of the District. The employers contribute amounts in accordance with the governing body's funding policy to provide the plan with sufficient assets to meet the benefits to be paid to participants. Refer to Note 8 in the 2018 Annual Report for a more complete description of the Employee Benefit Plans.

For the three months ended March 31, 2019, District employers have contributed $4.1 million to fund pension benefits. District employers anticipate contributing an additional $89.8 million to fund pension benefits in 2019. The Plan Sponsor Committee of the AgriBank District Retirement Plan determines the funding frequency of the plan. The Nonqualified Pension plan is funded as benefits are paid.

NOTE 6

Commitments and Contingencies

In the normal course of business, we have various contingent liabilities and commitments outstanding, primarily commitments to extend credit, which may not be reflected in the Financial Statements. We do not anticipate any material losses because of the contingencies or commitments.

On November 11, 2016, Diverse Partners, LP (Diverse Partners) served AgriBank with an alleged class action lawsuit (Lawsuit). Diverse Partners purported to be the beneficial owner of some of the previously issued and redeemed 9.125% Subordinated Notes (Notes). The Lawsuit was filed in New York state court. AgriBank removed the Lawsuit to federal court in the Southern District of New York. Diverse Partners asserted a breach of contract claim and a breach of an implied covenant of good faith and fair dealing alleging that AgriBank impermissibly redeemed the Notes. Diverse Partners requested damages in an amount to be determined at trial, reasonable attorneys' fees and other relief. On July 31, 2018, Diverse Partners filed a second amended complaint adding Troy Bank & Trust (Troy) as a second named plaintiff. Troy alleged the same claims against AgriBank as Diverse Partners. On August 30, 2018, AgriBank filed an answer to the amended complaint. The Lawsuit is in the discovery stage, and we intend to vigorously defend against these allegations. As of the date of this report, the likelihood of any outcome of the Lawsuit cannot be determined.

Additionally, from time to time we may be named as defendants in certain lawsuits or legal actions in the normal course of business. At the date of these Financial Statements, our management team was not aware of any material actions. However, management cannot ensure that such actions or other contingencies will not arise in the future.

While we are primarily liable for our portion of Systemwide bonds and notes, we are jointly and severally liable for the Systemwide bonds and notes of the other System Banks. The total bonds and notes of the System at March 31, 2019 was $281.1 billion.

NOTE 7

Fair Value Measurements

We use fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. Assets and liabilities measured at fair value on a recurring and non-recurring basis consist of federal funds, investments available-for-sale, derivative assets and liabilities, impaired loans, other property owned, and collateral assets and liabilities. The fair value is also calculated and disclosed for other financial instruments that are not measured at fair value on the Statements of Condition. These assets and liabilities consist of cash, loans, bonds and notes and commitments to extend credit and letters of credit. Refer to Note 12 in the 2018 Annual Report for descriptions of the valuation methodologies we use for asset and liabilities recorded at fair value on a recurring or non-recurring basis and for estimating fair value for financial instruments not recorded at fair value.

A fair value hierarchy is used for disclosure of fair value measurements to maximize the use of observable inputs. The valuation hierarchy is based on the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based on the lowest level of input that is significant to the fair value measurement. Refer to Note 2 within the 2018 Annual Report for a more complete description of these input levels.

NOTE 8

Derivative and Hedging Activity

Use of Derivatives

We maintain an overall interest rate risk management strategy that incorporates the use of derivative products to minimize significant unplanned fluctuations in earnings that are caused by interest rate volatility. Our goals are to manage interest rate sensitivity by modifying the repricing or maturity characteristics of certain balance sheet assets and liabilities so that movements in interest rates do not adversely affect net interest margin. As a result of interest rate fluctuations, fixed-rate liabilities will appreciate or depreciate in market value. The effect of this unrealized appreciation or depreciation is expected to be substantially offset by our gains or losses on the derivative instruments that are linked to fixed-rate liabilities. Another result of interest rate fluctuations is that the interest expense of floating-rate liabilities will increase or decrease. The effect of this variability in earnings is expected to be substantially offset by our gains and losses on the derivative instruments that are linked to these floating-rate liabilities. We consider the use of derivatives to be a prudent method of managing interest rate sensitivity, as it prevents earnings from being exposed to undue risk posed by changes in interest rates.

All of our derivative activities are monitored by the Asset/Liability Committee (ALCO) as part of the Committee's oversight of our asset/liability and treasury functions. ALCO ensures that the Bank's derivative hedging strategies are implemented in line with the board's risk appetite and are incorporated into our overall asset/liability risk-management framework. Refer to Note 13 of the 2018 Annual Report for additional information regarding counterparty risk and our risk mitigation practices.

Interest Rate Risk Management

We primarily enter into derivative transactions, particularly interest rate swaps, to reduce funding costs, improve liquidity and manage interest rate sensitivity. Interest rate swaps allow us to change the characteristics of fixed or floating rate debt we issue by swapping to a synthetic fixed or floating rate lower than those available to us if borrowings were made directly. Under interest rate swap arrangements, we agree with other parties to exchange, at specified intervals, payment streams calculated on a specified notional principal amount, with at least one stream based on a specified floating rate index.

Other Derivative Uses

Other uses for derivatives are as follows:

- We also facilitate interest rate swaps to qualified borrowers of the District Associations. These swaps allow qualified borrowers to manage their interest rate risk and lock in a fixed interest rate similar to a fixed rate loan. We manage the interest rate risk from customer swaps with the execution of offsetting interest rate swap transactions.
- We utilize commodity derivative instruments to manage mineral income volatility. We purchase commodity put options to protect against a decline in oil prices, which could significantly impact our mineral income.

Derivative Instruments Activity (in notional amount)

(in millions)	Receive-Fixed Swaps	Pay-Fixed Swaps	Floating-for-Floating	Other Derivatives	Total
As of December 31, 2017	$2,617	$2,316	$2,700	$88	$7,721
Additions	200	70	--	--	270
Maturities/amortization	(200)	(50)	--	--	(250)
As of March 31, 2018	$2,617	$2,336	$2,700	$88	$7,741
As of December 31, 2018	$1,922	$2,342	$2,500	$94	$6,858
Additions	**--**	**--**	**--**	**--**	**--**
Maturities/amortization	**(90)**	**--**	**--**	**(1)**	**(91)**
As of March 31, 2019	**$1,832**	**$2,342**	**$2,500**	**$93**	**$6,767**

Other derivatives consisted of retail customer derivative products.

Credit Risk Management

By using derivative instruments, we are subject to credit and market risk. If a counterparty is unable to perform under a derivative contract, our credit risk equals the net amount due to us. Generally, when the fair value of a derivative contract is positive, we have credit exposure to the counterparty, creating credit risk for us. When the fair value of the derivative contract is negative, we do not have credit exposure; however, there is a risk of our nonperformance under the terms of the derivative transaction.

To minimize the risk of credit losses, for non-customer bilateral derivatives we deal only with counterparties that have an investment-grade or better credit rating from a rating agency, and we monitor the credit standing and levels of exposure to individual counterparties. At March 31, 2019, we do not anticipate nonperformance by any of these counterparties. We typically enter into master agreements that contain netting provisions. These provisions allow us to require the net settlement of covered contracts with the same counterparty in the event of default by the counterparty on one or more contracts. All such derivative contracts are supported by bilateral collateral agreements with counterparties requiring collateral to be posted in the event certain dollar thresholds of exposure of one party to the other are reached. These thresholds vary depending on the counterparty's current credit rating.

Bilateral Interest Rate Swaps

(in thousands)	**March 31, 2019**	December 31, 2018
Notional amount	**$3,668,883**	$3,669,654
Cash collateral posted with counterparties	**$12,100**	$5,250
Cash collateral posted by counterparties	**--**	(1,970)
Total collateral posted with counterparties, net	**$12,100**	$3,280

We also clear derivative transactions through a futures commission merchant (FCM) with a clearinghouse or a central counterparty (CCP). When the swap is cleared by the two parties, the single bilateral swap is divided into two separate swaps with the CCP becoming the counterparty to both of the initial parties to the swap. CCPs have several layers of protection against default including margin, member capital contributions and

FCM guarantees of their customers' transactions with the CCP. FCMs also pre-qualify the counterparties to all swaps that are sent to the CCP from a credit perspective, setting limits for each counterparty and collecting initial and variation margin daily from each counterparty for changes in the value of cleared derivatives. The margin collected from both parties to the swap protects against credit risk in the event a counterparty defaults. The initial and variation margin requirements are set by and held for the benefit of the CCP. Additional initial margin may be required and held by the FCM, due to its guarantees of its customers' trades with the CCP. Typically, daily variation margin payments are recognized as settlements rather than collateral posted.

Centrally Cleared Interest Rate Swaps

(in thousands)	**March 31, 2019**	December, 31 2018
Notional Amount	**$3,098,243**	$3,188,774
Initial margin posted with counterparties	**$19,956**	$18,948
Additional margin posted with (by) counterparties	**5,370**	(3,261)
Total margin posted with counterparties, net	**$25,326**	$15,687

All margin posted by or with counterparties was in cash. We had no securities posted by counterparties or to counterparties for any period presented.

Accounting for Derivatives

Fair Value Hedges: For derivative instruments that are designated and qualify as a fair value hedge, the gain or loss on the derivative as well as the offsetting gain or loss on the hedged item attributable to the hedged risk are recognized in current earnings. Effective January 1, 2019, we include the gain or loss on the derivative in the same line item ("Interest expense") as the offsetting gain or loss on the related hedged item. Prior to the implementation of ASU 2017-12 "Targeted Improvements to Accounting for Hedging Activities," the gain or loss on derivatives representing hedge components excluded from the assessment of effectiveness were recorded in "Miscellaneous income and other (losses) gains, net" on the Statements of Comprehensive Income.

Cash Flow Hedges: For derivative instruments that are designated and qualify as a cash flow hedge, the gain or loss on the derivative is reported as a component of other comprehensive (loss) income, until earnings are affected by the variability of the cash flows of the hedged transaction. When reclassified to earnings, we include the gain or loss on the derivative in the "Interest expense" line item on the Statements of Comprehensive Income. Prior to the implementation of ASU 2017-12 "Targeted Improvements to Accounting for Hedging Activities," the gain or loss on derivatives representing hedge components excluded from the assessment of effectiveness were recorded in "Miscellaneous income and other (losses) gains, net" on the Statements of Comprehensive Income.

Derivatives not Designated as Hedges: For derivatives not designated as a hedging instrument (economic hedges), the related change in fair value is recorded in current period earnings in "Miscellaneous income and other (losses) gains, net" on the Statements of Comprehensive Income.

Financial Statement Impact of Derivatives

The following tables present the gross fair value, offsetting and net exposure amounts of derivative assets and derivative liabilities. The fair value of our derivative contracts are presented as "Derivative assets" and "Derivative liabilities" on the Statements of Condition, and are presented on a net basis for counterparties with master netting agreements.

(in thousands)	March 31, 2019 Fair Value Assets	March 31, 2019 Fair Value Liabilities	December 31, 2018 Fair Value Assets	December 31, 2018 Fair Value Liabilities
Derivatives designated as hedging instruments:				
Receive-fixed swaps	**$1,264**	**$11,197**	$542	$18,176
Pay-fixed swaps	**29,316**	**32,877**	55,736	18,478
Floating-for-floating swaps	**--**	**4,569**	--	3,252
Total derivatives designated as hedging instruments	**30,580**	**48,643**	56,278	39,906
Derivatives not designated as hedging instruments:				
Pay-fixed swaps	**2,939**	**305**	4,030	118
Other derivative products	**1,753**	**2,491**	10,827	3,557
Total derivatives not designated as hedging instruments	**4,692**	**2,796**	14,857	3,675
Credit valuation adjustments	**(125)**	**--**	(309)	--
Total gross amounts of derivatives	**$35,147**	**$51,439**	$70,826	$43,581
Gross amounts offset in Statements of Condition	**(24,601)**	**(24,601)**	(28,997)	(28,997)
Variation margin settled	**--**	**(2,918)**	(11,848)	--
Net amounts in Statements of Condition	**$10,546**	**$23,920**	$29,981	$14,584

(in thousands)	March 31, 2019	December 31, 2018
Derivative assets, net	**$10,546**	$29,981
Derivative liabilities, net	**(23,920)**	(14,584)
Accrued interest payable on derivatives, net	**(7,931)**	(1,478)
Gross amounts not offset in Statements of Condition:		
Cash collateral posted by counterparties	**--**	(5,231)
Cash collateral posted with counterparties	**37,426**	24,198
Net exposure amounts	**$16,121**	$32,886

The fair value of derivatives includes credit valuation adjustments (CVA). The CVA reflects credit risk of each derivative counterparty to which we have exposure, net of any collateral posted by the counterparty, and an adjustment for our credit worthiness where the counterparty has exposure to us. The CVA was not material in any of the periods presented. The change in the CVA for the period is included in "Interest expense" on the Statements of Comprehensive Income. Prior to the implementation of ASU 2017-12 "Targeted Improvements to Accounting for Hedging Activities," the change in the CVA was included in "Miscellaneous income and other (losses) gains, net" on the Statements of Comprehensive Income.

In relation to our cash flow hedges, the following table presents the amount of other comprehensive income (OCI) recognized on derivatives and the amount reclassified from accumulated other comprehensive income (AOCI) into earnings on effective cash flow hedges. During the next 12 months, $2.9 million of net gains in

AOCI on derivative instruments that qualified as cash flow hedges are expected to be reclassified into earnings.

(in thousands) **For the three months ended March 31, 2019**	**Amount of Loss Recognized in OCI on Derivatives**	**Amount of Gain Reclassified from AOCI into Income (loss)**
Pay-fixed swaps	**$(39,078)**	**$1,743**
Floating-for-floating swaps	**(1,617)**	**(300)**
Total	**$(40,695)**	**$1,443**

(in thousands) For the three months ended March 31, 2018	Amount of Gain Recognized in OCI on Derivatives	Amount of Gain Reclassified from AOCI into Income
Pay-fixed swaps	$57,460	$ --
Floating-for-floating swaps	1,459	--
Total	$58,919	$ --

The following table shows the effect of fair value and cash flow hedge accounting as well as economic hedges on the Statements of Comprehensive Income for the three months ended March 31, 2019.

(in thousands) For the three months ended March 31, 2019	**Miscellaneous Income and Other Gains, net**	**Interest Expense**
Total amount of income and expense line items presented in the Statements of Comprehensive Income in which the effects of the fair value, cash flow and economic hedges are recorded:	**$(7,868)**	**$622,439**
Asset and Liability Management Positions		
Fair value hedges:		
Interest rate derivatives	**--**	**(7,886)**
Bonds and notes	**--**	**6,870**
Cash flow hedges:		
Interest rate derivatives	**--**	**(1,443)**
Economic hedges:		
Interest rate derivatives	**(27)**	**--**
Commodity derivatives	**(9,259)**	**--**

Note: AgriBank does not exclude components from effectiveness testing for fair value or cash flow hedges. AgriBank did not reclassify gains or losses into earnings as a result of the discontinuance of cash flow hedges during the the three months ended March 31, 2019.

The following table shows the cumulative hedging adjustment (fair value adjustment) for fair value hedges that are included in the carrying amount of the hedged assets (liabilities):

(in thousands) For the three months ended March 31, 2019	**Carrying Amount of the Hedged Item**	**Cumulative Fair Value Adjustment Included in the Carrying Amount of the Hedged Item**
Line Item on the Statements of Condition		
Bonds and notes	**$1,821,177**	**$(10,823)**

Note: AgriBank did not have any hedging adjustments for discontinued fair value hedges.

NOTE 9

Accumulated Other Comprehensive Loss

Changes in Components of Accumulated Other Comprehensive Loss

(in thousands)	Not-other-than-temporarily-impaired Investments	Derivatives and Hedging Activity	Employee Benefit Plans Activity	Total
Balance at December 31, 2017	$(75,184)	$(10,119)	$(1,123)	$(86,426)
Other comprehensive (loss) income	(30,058)	58,919	--	28,861
Amounts reclassified from accumulated other comprehensive loss	--	--	32	32
Net other comprehensive (loss) income	(30,058)	58,919	32	28,893
Balance at March 31, 2018	$(105,242)	$48,800	$(1,091)	$(57,533)
Balance at December 31, 2018	$(82,857)	$34,005	$(1,018)	$(49,870)
Other comprehensive income (loss) before reclassifications	**40,114**	**(40,695)**	**--**	**(581)**
Amounts reclassified from accumulated other comprehensive loss	**--**	**(1,443)**	**27**	**(1,416)**
Net other comprehensive income (loss)	**40,114**	**(42,138)**	**27**	**(1,997)**
Balance at March 31, 2019	**$(42,743)**	**$(8,133)**	**$(991)**	**$(51,867)**

There were no material reclassifications from accumulated other comprehensive loss in either period ending March 31, 2019 or 2018.

NOTE 10

Subsequent Events

We have evaluated subsequent events through May 9, 2019, which is the date the Financial Statements were available to be issued. There have been no material subsequent events that would require recognition in the Quarterly Financial Statements or disclosure in the Notes to those Financial Statements.

Additional Regulatory Information

AgriBank, FCB

(Unaudited)

The following information contains quarterly regulatory disclosures as required under FCA Regulations 628.62 and 628.63, for risk-adjusted ratios, common equity tier 1, tier 1 capital and total capital ratios. Refer to Note 4 of the accompanying Financial Statements for information regarding the statutorily required permanent capital ratio. These disclosures should be read in conjunction with our 2018 Annual Report, which includes additional qualitative disclosures. Unless otherwise noted, there have been no material changes to the qualitative disclosures contained in the 2018 Annual Report. As required by FCA Regulations, these disclosures, including Regulatory Capital ratios are made available for at least three years and can be accessed in our financial reports at www.AgriBank.com under Investor Relations.

The following table summarizes the interim disclosure requirements and indicates where each matter is disclosed in this quarterly report.

Disclosure Requirement	Description	First Quarter 2019 Report Reference
Scope of Application	Corporate entity and consolidated subsidiaries	35
Capital Structure	Regulatory capital components	36
Capital Adequacy	Risk-weighted assets Regulatory capital ratios	37
Capital Buffers	Quantitative disclosures	37
Credit Risk	Summary of exposures Geographic distribution Additional industry and counterparty distribution Contractual maturity Impaired loans and allowance for credit losses	38-39
Counterparty Credit Risk-Related Exposures	Counterparty exposures	40
Credit Risk Mitigation	Exposures with reduced capital requirements	40
Securitization	Securitization exposures	41
Equities	Equity exposures	41
Interest Rate Risk for Non-Trading Activities	Interest rate sensitivity	42

Scope of Application

As of March 31, 2019, the AgriBank District has 14 Agricultural Credit Associations, each of which has wholly owned Farm Land Credit Association and Production Credit Association subsidiaries. AgriBank is primarily owned by these 14 Farm Credit Associations. AgriBank is the primary funding source for all District Associations. AgriBank has no subsidiaries; therefore, the financial statements are only those of AgriBank and are not consolidated with any other entity.

Capital Structure

Refer to Note 4 of the accompanying financial statements and Note 7 of the 2018 Annual Report for a description of capital structure.

Regulatory Capital Structure

(in thousands) **As of March 31, 2019**	**3-month Average Daily Balance**
Common Equity Tier 1 Capital (CET1)	
Common Cooperative Equities:	
Statutory minimum purchased borrower stock	**$26**
Other required member purchased stock	**1,328,300**
Allocated equities:	
Allocated stock subject to retirement	**1,222,830**
Nonqualified allocated equities subject to retirement	**--**
Nonqualified allocated equities not subject to retirement	**--**
Unallocated retained earnings as regulatorily prescribed	**3,197,558**
Regulatory adjustments and deductions made to CET1	**(5,176)**
Total CET1	**$5,743,538**
Tier 1 Capital	
Non-cumulative perpetual preferred stock	**$250,000**
Total additional tier 1 capital	**250,000**
Total Tier 1 Capital	**$5,993,538**
Total Capital	
Allowance for loan losses	**$25,591**
Total tier 2 capital	**25,591**
Total Capital	**$6,019,129**

Capital Adequacy and Capital Buffers

Risk-Weighted Assets

(Risk-weighted 3-month average daily balance in thousands)	
As of March 31, 2019	
Exposures to:	
Sovereign entities	**$ --**
Foreign bank entities	**206,763**
Government-sponsored enterprises[1]	**18,167,028**
Depository insitutions and credit unions[2]	**340,461**
Public sector entities	**--**
Corporate, including borrower loans	**14,073,951**
Residential mortgage	**72,421**
Past due and nonaccrual	**767**
Securitization exposures	**392,643**
Cleared transactions	**404**
Unsettled transactions	**--**
All other assets	**88,586**
Deductions:	
Regulatory adjustments and deductions made to CET1	**5,176**
Regulatory adjustments and deductions made to AT1[3]	**--**
Regulatory adjustments and deductions made to T2[4]	**--**
Total standardized risk-weighted assets	**$33,337,848**

[1] Includes exposures to Farm Credit System entities

[2] Includes exposures to OFIs that are risk-weighted as U.S. depository institutions and credit unions

[3] AT1 capital is additional tier 1 capital

[4] T2 is tier 2 capital

As of March 31, 2019, the Bank was well-capitalized and exceeded all capital requirements to which it was subject, including applicable capital buffers. Because capital exceeded the buffer requirements, the Bank currently has no limitations on its distributions and discretionary bonus payments. The aggregate amount of eligible retained income was $236.8 million as of March 31, 2019.

Regulatory Capital Requirements and Ratios

	Regulatory Minimums	Required Buffer	As of March 31, 2019	Calculated Buffer
Common equity tier 1 capital ratio*	4.5%	1.3%	**17.2%**	**12.7%**
Tier 1 capital ratio*	6.0%	1.3%	**18.0%**	**12.0%**
Total capital ratio*	8.0%	1.3%	**18.1%**	**10.1%**
Capital conservation buffer				**10.1%**
Tier 1 leverage ratio	4.0%	1.0%	**5.5%**	**1.5%**
Leverage buffer				**1.5%**

*The 2.5% capital conservation buffer over risk-adjusted ratio minimums is being phased in over three years under the FCA capital requirements. The phase in period ends on December 31, 2019.

Credit Risk

Refer to Note 2 of the accompanying Financial Statements for amounts of impaired loans with and without related allowance, loans in nonaccrual status and greater than 90 days past due, loans past due greater than 90 days and still accruing, the allowance at the end of each reporting period, charge-offs during the period, and changes in components of our allowance for credit losses. Allowance is determined individually by loan or by pool based on homogeneous characteristics such as probability of default (PD) and loss given default (LGD). Allowance needs by geographic region are only considered in rare circumstances, for example flooding, drought, etc., that may not otherwise be reflected in the PD and LGD. There was no allowance attributed to a geographic area as of March 31, 2019. Refer to Note 3 for a summary of the contractual maturity, amortized cost, fair value and weighted average yield of investment securities by type.

Refer to the Capital Adequacy and Capital Buffers section for information regarding types of credit risk exposures.

Credit Exposures - Lending and Investments

(in thousands) **As of March 31, 2019**	End of Period	3-month Average Daily Balance

Counterparty Credit Risk and Credit Risk Mitigation

Credit Risk Mitigation Related to Derivatives

We have not entered into any credit default swap agreements to mitigate our credit exposure to counterparties.

Refer to Note 8 of the accompanying Financial Statements for the gross positive fair value of contracts, collateral held and the net unsecured credit exposure.

Current credit exposure is the greater of zero or the fair market value of a derivative contract.

Current Credit Exposure

(in thousands)	As of March 31, 2019
Interest rate contracts	$46,024
Other contracts	1,809
Total	$47,833

Credit Risk Mitigation Related to Loans

Financial collateral is not used to mitigate credit risk in our loan portfolio.

Loan and Commitment Exposures Covered by Guarantees

(in thousands) As of March 31, 2019	3-month Average Daily Balance	Risk-weighted 3-month Average Daily Balance
Conditionally guaranteed		
Loans	$25,912	$5,182
Commitments	54,864	2,195
Total	$80,776	$7,377

Credit Risk Mitigation Related to Investments

Financial collateral is not used to mitigate credit risk in our investment portfolio.

Investment Exposures Covered by Guarantees

(in thousands) As of March 31, 2019	3-month Average Daily Balance	Risk-weighted 3-month Average Daily Balance
Unconditionally guaranteed	$6,018,785	$ --
Conditionally guaranteed	4,939,064	781,050
Total	$10,957,849	$781,050

Securitization

Securitization Exposures

(3-month average daily balance in thousands) As of March 31, 2019	Exposure	Weighted average risk-weight factor	Risk-weighted assets
Gross up risk weight bands:			
100%	**$2,621**	**100%**	**$2,621**
> 100% and < 1,250%	**283,027**	**138%**	**390,022**
1,250%	**--**	**1,250%**	**--**
Total risk-weighted securitization assets	**$285,648**	**137%**	**$392,643**

Equities

We are a limited partner in certain Rural Business Investment Companies (RBIC) for various relationship and strategic reasons. These investments are not publicly traded, and the book value approximates fair value. There have been no sales or liquidations of these investments during the period.

Equity Investments included in Capital Ratios

(in thousands) **As of March 31, 2019**	Disclosed in Other Assets	Life-to-Date losses recognized in Retained Earnings[1]
RBIC	**$13,866**	**$3,437**

[1] Retained earnings is included in common equity tier 1, tier 1 and total capital ratios

Interest Rate Risk

Our policies establish a maximum variance from our base case in a plus or minus 200 basis point change in rates, except when the U.S. Treasury three-month rate is below 4 percent, at which time the minus scenario is limited to one-half of the U.S. Treasury three-month rate. Because of the low interest rates at March 31, 2019, the down scenario is limited to a down 119 basis point change.

NII Sensitivity Analysis

	Basis Point Interest Rate Change			
As of March 31, 2019	**Down 119**	**Down 100**	**Up 100**	**Up 200**
